for Windows

Download and Installation Guide

Get your copy, install it and start your first class in a few minutes.

What you need

Ai Smart Board runs on the teacher's Windows computer. Students join from any device.

1

Windows 10 or 11

64 bit, with Microsoft Edge or Google Chrome.

2

Internet

To send your lesson link to students and to use AI (optional).

3

Zoom or a projector

Zoom, Google Meet, Teams, or a big screen in class.

1 Get your copy

1. Choose your plan on our website: **Lifetime** or **Lifetime Plus**.

2. Send us a message on **WhatsApp** or by **email**. We answer your questions.

3. We send you **your own copy** of Ai Smart Board, with a download link.

Your copy is yours: it is activated for your computer and works every day.

2 Install on Windows

1. Open the link we send you and **download** the zip file.

2. Right click the zip file and choose **Extract All**, then **Extract**.

3. Open the new folder and double click **Ai Smart Board**.

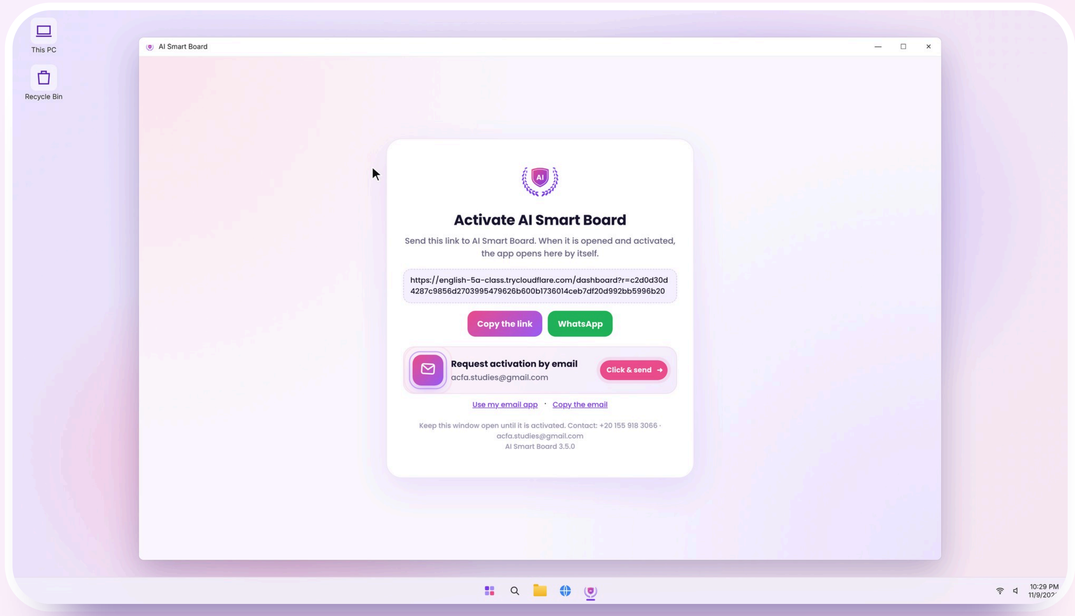

4. If Windows shows **"Windows protected your PC"**, click **More info**, then **Run anyway**. You see this only the first time.

3 Activate your copy

1. The first time you open Ai Smart Board, you see the **activation page**.

2. Click **Copy**, or send the link to us on **WhatsApp** or by **email**.

3. We activate your copy. You do this **only once**: after that it opens every day.

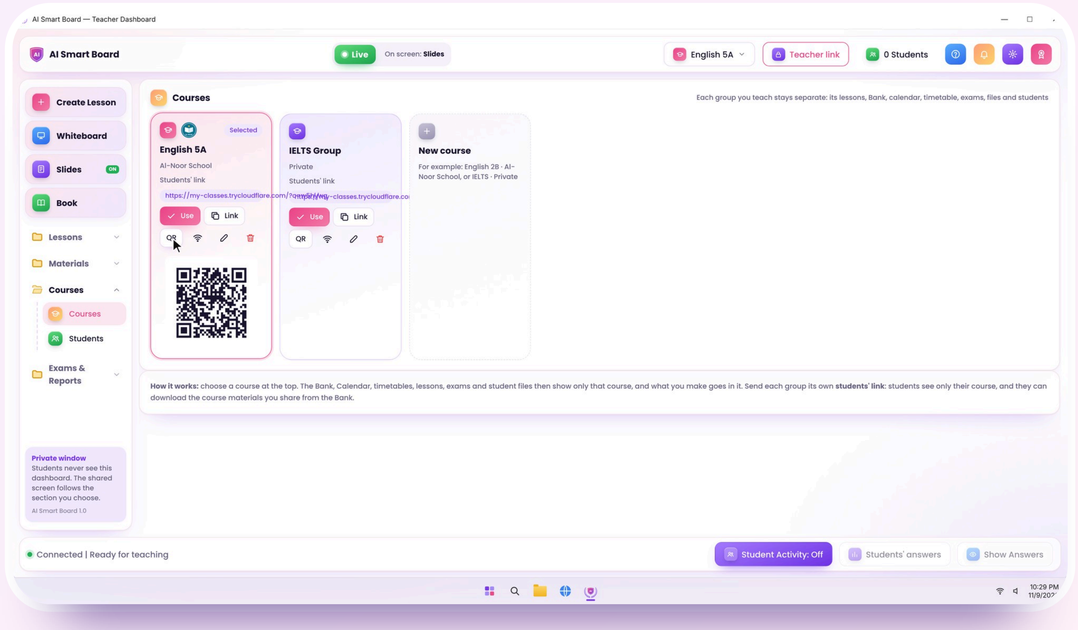

4 Start teaching

1. Two windows open: the **Teacher Dashboard** (only you see it) and the **Presentation** window (your students see it).

2. Open **Courses** and make a course for every class.

3. Send the course **link** or show the **QR code**. Students join from any phone, tablet or computer.

We are here to help
